CURRICULUM VITAE

Jesús Lozada

Full-Stack Developer · eKYC, Biometrics & OCR

jesuselozada@gmail.com · +58 412 701 1657 · Maturín, Monagas, Venezuela · jesuslozada.dev

PROFESSIONAL SUMMARY

Full-stack developer with 4 years of experience building high-performance web applications. Specialized in eKYC, biometric verification (facial recognition and anti-spoofing), OCR, and peripheral integration. Experienced in leading the scalability of digital identity platforms and optimizing performance on low-end devices.

PROFESSIONAL EXPERIENCE

Project Lead & Software Developer — Sep 2024 — Oct 2026

Noa Export

- Led the scalability of the eKYC platform, coordinating architecture, performance, and product delivery.
- Integrated biometrics, facial recognition, and anti-spoofing into identity verification flows.
- Implemented OCR to automate data extraction, reducing manual entry by 70%.
- Optimized the application for low-end devices and peripheral integration.

Full-stack Developer — Jul 2022 — Aug 2024

PKI Services

- Migrated a legacy Angular application to a modern React and TypeScript architecture.
- Designed and developed RESTful APIs with Python and Flask.
- Implemented digital PDF signatures within the document workflow.
- Promoted to Project Lead in 12 months, taking on technical coordination for the team.

SELECTED PROJECTS

- **Scalable eKYC platform:** technical leadership, facial biometrics, and anti-spoofing in identity verification flows.
- **Document automation with OCR:** data extraction and validation with a 70% reduction in manual entry.
- **Angular → React modernization:** migration to React/TypeScript with REST APIs in Flask and digital PDF signatures.
- **CRM platform (in development):** full-stack CRM for contacts, companies, and sales pipeline using React, TypeScript, Python/Flask, and SQL.
- **Job-search web scraper (in development):** Python automation to collect and normalize job listings.

TECHNICAL SKILLS

Frontend	JavaScript, TypeScript, React.js, HTML5, CSS3, Tailwind CSS
Backend & APIs	Python, Flask, REST APIs, SQL, MySQL / MariaDB
eKYC & Data	Facial recognition, anti-spoofing, OCR, PDF digital signature, peripheral integration
Tools	Git, Docker, performance optimization

EDUCATION

TSU in Computer Science — 2023

IUTV

LANGUAGES

Spanish: native **English:** fluent
